Re.: Floating bushings for first and fourth speed gears of transmission output shaft.

Dear Sirs,

On the models

Applicable to all  
U S Models with  
**TELESCOPIC FORK**

R 50	effective of	Frame No.	6460556
R 60	"	" Frame No.	1 814 311
R 69 S	"	" Frame No.	663 847

instead of the pressed-on bushings for first and fourth speed gears of transmission output shaft, axially moveable bushings are being fitted, which may also be installed subsequently, for replacement.

The new bushings are mounted more easily and exceed on account of their longer service life.

The part number remains unchanged.

Very truly yours,  
BAYERISCHE MOTOREN WERKE  
Aktiengesellschaft
