

THE ONLY ACCESSORIES BUILT TO THE SAME STANDARDS AS YOUR BMW.

Instead of tacking just anybody's accessories onto you and your BMW, consider the ones designed to integrate with the two of you by BMW itself.

The easy-attaching windscreen, saddlebags, Multivarior tank bag and the award-winning System Helmet were all shaped in the same wind tunnel as your BMW.

A visit to your BMW dealer should confirm Rider magazine's judgement that these, as well as BMW's boots, gloves and unique touring leathers are "the best" and "a joy to the touring rider."
