

San Jose BMW Proudly Announces
Immediate Availability of a Thoroughbred—

THE KRAUSER MKM 1000!

San Jose BMW has long been recognized as the leader in BMW handling and performance options. Now we are pleased to announce IMMEDIATE AVAILABILITY of the Krauser MKM-1000. This motorcycle is truly redefining the limits of motorcycling. DOT, EPA, and California approved, the MKM-1000 was designed from the ground up to be a truly unique thoroughbred BMW. The triangulated, birdcage frame gives tremendous rigidity for optimum, quick

handling. The monocoque fairing and seat afford both the best aerodynamics and unmatched aesthetic appeal. With reduced weight, lowered center of gravity, and improved ground clearance, the MKM adds a whole new meaning to BMW performance. With all stock BMW engine and running gear, this is the first truly high performance motorcycle with 100,000 mile plus dependability.

If you can handle the attention this

motorcycle creates, we have serial numbers 002 to 015 waiting for you. Each motorcycle is accompanied by a certificate of limited production signed personally by Mike Krauser.
